Greenfrog Ponds
Greenfrog Lawn and Landscape
2529 114th Ave
Allegan, MI 49010

Greenfrog is a local landscape company that would like to provide other local businesses/organizations with the opportunity to “aquascape your landscape” by adding a water feature. Having a water feature not only enhances the landscape, it also attracts visitors and customers.

There is an application process to complete prior to the choice of locations that will be selected for this opportunity. This season we are hoping to complete three aquascapes and begin a schedule for additional locations in 2009. If you feel your business would benefit from this opportunity, please fill out and return the application accompanying this letter and return it to greenfrog ponds as soon as possible.

Remember, this is not a free offer. But, an opportunity to enhance your business appearance at a discounted rate that will save anywhere from 15- 40% on a professionally installed feature with professional grade products. While at the same time giving us the opportunity to show the area the great work we do.

Sincerely,

Paul and Stephanie Walker
Greenfrog Ponds

Aqua Community Application
